

## FIRE BLANKET

**SDFB 1.2**

**SDFB 2.1**

**SDFB 1.4**

### PRODUCT DESCRIPTION

SHIELD Fire blankets are made of fire resistant glass fiber fabric with silicone coating. It is primarily intended for extinguishing cooking oil fires in the kitchen. The Blankets are compliance with BS1869 Standard Requirements.

### FEATURES

- BSI Kitemark Approved
- SHIELD blankets are electrical resistant not less than 1MΩ to ensure that in the event of use where live electrical equipment is concerned, the potential for an electrical shock is minimized

- SHIELD fire blanket can be released and can be covered on the flame in LESS THAN FIVE SECONDS
- It is an excellent fire extinguisher in a car, boat, caravan or holiday home and we recommend that each family have at least one for fire safety purpose. Fire blankets can be used to extinguish fires in electrical appliances (toaster, coffee maker, etc.) rubbish bins, clothes and table top fires caused by candles or fat pan fires. Fire blankets can also be used to wrap around a person whose clothing is on fire.
